WOMEN IN LIFESAVING WORKSHOP

This workshop aims to support women who are actively patrolling to develop their skills and provides an opportunity to come together and network with like-minded individuals.

What's in it for you ?

- Develop your lifesaving through practical sessions including shallow water rescue and a search and rescue exercise with interagency services.
- Learn more about current pathways in lifesaving.
- Understand the current state of lifesaving and discuss barriers for women and girls and how can all support in creating an equitable community.
- Build a support network with like-minded individuals in our organisation with an opportunity to network.
- Find out how you can apply for the 2027 Advancing Women in Leadership Program.
