Club/ Branch Communication

Subject	**Free eSafety webinar – understanding and responding to online harms**
Information	Children and young people face increasingly complex online risks, including AI-generated content and harmful online communities. eSafety's upcoming webinar, **Understanding, identifying, and responding to online harms in child-safe organisations**, will provide practical guidance to help organisations recognise and respond to these risks. The session will explore: • Online contact risks and emerging harms affecting children and young people. • How child safe standards apply to digital safety and organisational practices. • Resources to help prevent, detect and respond to online harms and support safe use of digital technologies. • The webinar is relevant to club and branch committee members, safeguarding officers, coaches, age managers, staff and volunteers supporting children and young people . **Date:** Tuesday, 10 November 2026 **Time:** 12 noon Queensland time (1.00pm AEDT) **Location:** Online Please share this opportunity with those in your club or branch who support young members or manage online communications.
