

Club/ Branch Communication

Subject	SLSQ Interoperability and Coordination Seminar Recording
Information	The Interoperability and Coordination Seminar was held online on Wednesday 17 September, covering key updates across: • SOCC – operational updates, radio conversations and traffic, incident management arrangements and other items raised throughout the session. • GWN radios – refresher regarding GWN radio configuration and use, process for reporting coverage issues, care protocols and procedures for lost/damaged radios; • LIMSOC – the latest updates on functionality including SRR, first aid logs and where to find basic user guidance and FAQs. The session was particularly relevant for Club Captains and Patrol Captains, however all club members are encouraged to watch the recording.
