

<b>Subject</b>	<b>The Importance of Exit Surveys for Management Committees</b>
<b>Information</b>	<p>As a volunteer-based organisation, strong and effective leadership is essential to our success. Management and Executive Committees play a crucial role in guiding the direction of our Club, Branch, and State activities. To support continuous improvement in governance, leadership, and operational effectiveness, clubs are encouraged to implement Exit Surveys for committee members who are concluding their term or stepping down from their roles.</p> <p>Exit surveys provide valuable insights into the experiences of outgoing committee members, helping us to:</p> <ul style="list-style-type: none"><li>• Understand what worked well and what could be improved in committee operations.</li><li>• Identify challenges faced by committee members during their term.</li><li>• Capture feedback on leadership development, governance processes, and organisational culture.</li><li>• Support succession planning by ensuring a smoother transition for incoming committee members.</li></ul> <p>Individuals completing the exit survey must ensure their feedback is honest and constructive, as the goal is for it to help strengthen the effectiveness of governance and leadership structures at a club, branch &amp; state level.</p> <p>For more information on this, open the below links.</p>
