WOMEN IN POWERCRAFT WORKSHOP

DATE & LOCATION

15 - 17 January 2027

North Kirra SLSC

RSVP

Register Here

ONLY 7 SPOTS LEFT!

IRBs are at the heart of surf lifesaving operations — from everyday patrols and water safety through to critical search and rescue situations. The Women in Powercraft Program gives members the opportunity to build their IRB skills, confidence and experience in a supportive, collaborative environment.

Whether you're ready to gain your first powercraft award, take the next step towards becoming an IRB Driver, or develop your skills as a trainer or assessor, there's a pathway for you.

What's in it for you?

- Build confidence on the water through practical, hands-on IRB training.
- Develop new powercraft skills in a welcoming and supportive environment.
- Take your skills further by exploring trainer and assessor pathways.
- Connect with others from across SLSQ who share an interest in powercraft.
- Undertake the IRB Crew award or work towards your IRB Driver Award

Covering accomodation, lunch and dinner provided, flights are covered for Central and NQ members

Only 7 spots remaining! Register now to secure your place.
